

Security Advisory

07.10.2018

VULNERABILITY DETAILS & ACTION PLAN

Apple has released security updates to address vulnerabilities in multiple products. An attacker could exploit some of these vulnerabilities to take control of an affected system.

The National Cybersecurity and Communications Integration Center encourages users and administrators to review Apple security pages for the following products and apply the necessary updates:

- iTunes 12.8 for Windows ▶ Click [here](#) to update
- iCloud for Windows 7.6 ▶ Click [here](#) to update
- Safari 11.1.2 ▶ Click [here](#) to update
- macOS High Sierra 10.13.6, Security Update 2018-004 Sierra, Security Update 2018-004 El Capitan ▶ Click [here](#) to update
- watchOS 4.3.2 ▶ Click [here](#) to update
- tvOS 11.4.1 ▶ Click [here](#) to update
- iOS 11.4.1 ▶ Click [here](#) to update

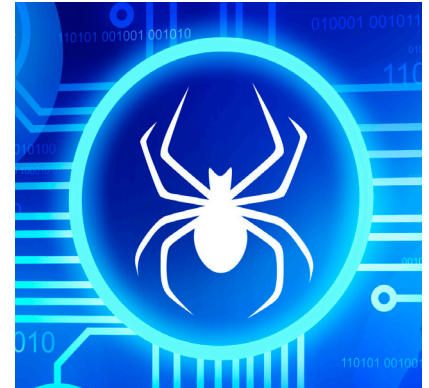

Adobe has released security updates to address vulnerabilities in Adobe Acrobat and Reader, Adobe Flash Player, Adobe Connect, and Adobe Experience Manager. A remote attacker could exploit some of these vulnerabilities to take control of an affected system.

NCCIC encourages users and administrators to review Adobe Security Bulletins:

- Adobe Acrobat and Reader ▶ Click [APSB18-21](#) to update
- Adobe Flash Player ▶ Click [APSB18-24](#) to update
- Adobe Connect ▶ Click [APSB18-22](#) to update
- Adobe Experience Manager ▶ Click [APSB18-23](#) to update

Microsoft has released updates to address vulnerabilities in Microsoft software. A remote attacker could exploit some of these vulnerabilities to take control of an affected system.

NCCIC encourages users and administrators to review Microsoft's July 2018 [Security Update Summary](#) and [Deployment Information](#) and apply the necessary updates.

Need help?

SyCom will be happy to assist with remediation efforts related to any vulnerability your business might experience.
