

# Security Advisory 08.01.2018

## VULNERABILITY DETAILS & ACTION PLAN

Cisco has released a security update to address a vulnerability in **Cisco Prime Collaboration Provisioning**. A remote attacker could exploit this vulnerability to cause a denial-of-service condition.

SyCom encourages users and administrators to review the [Cisco Security Advisory](#) and apply the necessary update.

### **Need help?**

*SyCom will be happy to assist with remediation efforts related to any vulnerability your business might experience.*

*Contact your Account Manager to explore ways we can help.*
