

Solution Case Study

CLIENT: SMITHFIELD FOODS, INC.

SOLUTION: AZURE & ORCHESTRATOR

CHALLENGE

- Multiple virtualization technologies
- Dissatisfied with current support vendor
- No desktop/server management
- Expiring anti-virus
- On premise storage issues

SOLUTION

- Hyper-V deployment for hypervisor
- Azure subscription for cloud storage
- Configuration Manager for desktop/server management and virus protection
- Secure site-to-site VPN connection built from Azure to private data center plus automation with Orchestrator

BUSINESS RESULTS

- Cost savings in data center with cloud storage in Azure
- Decreased setup time for virtual machine deployments via Orchestrator
- SyCom System Center support contract for reliable 24/7 monitoring

SOLUTION SUMMARY

With RingCentral Collaboration Tools, operational efficiency was achieved while reducing travel costs. (call out the business outcome that will drive other businesses to see the value?)

- Global food company with locations in 12 countries
- Largest pork producer and processor in the U.S.
- Founded in 1936
- 46,000 Employees

“SyCom is our trusted advisor for System Center and Azure, even above Microsoft.”

Matthew Douglas

Director of Cloud & Solutions Architecture
